

HANDICAL – STORED HOT WATER ON TAP

HANDICAL

Eberspächer calorifiers provide the complete domestic hot water systems for motorhome and marine applications.

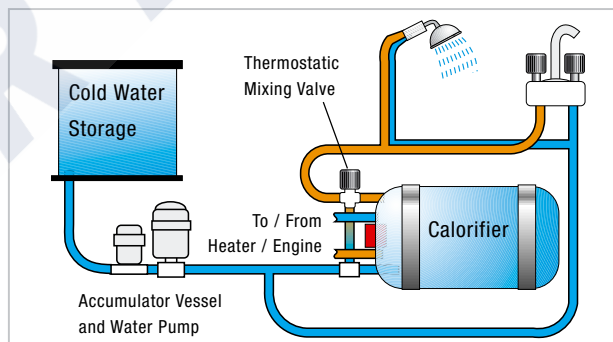

A calorifier uses the engine heated water to obtain a domestic hot water system on almost any vessel with a water cooled engine, alternatively the calorifier can be heated with an Eberspächer independent water heater.

Water remains hot whilst the engine is not running to ensure an ample supply.

The engine or Eberspächer heated water is passed through the primary coil. The fresh water is heated and flows to all the hot water taps and shower fittings in the vessel.

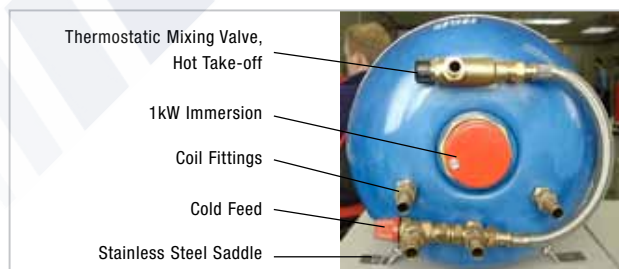

The water stored within the calorifier is at a far higher temperature than needed for domestic hot water supply. Therefore the integral thermostatic mixer adds cold water to provide a far greater capacity of temperate water.

Dependent, of course upon the rate at which hot water is drawn off, the calorifier will remain hot up to 24 hours after the engine or heater has been switched off.

HANDICAL CALORIFIERS COME COMPLETE WITH

- Thermostatic mixing valve.*
- 1,000 Watt immersion.
- Pressure release valve 3.5 bar.
- Coil connections.
- Snap-on hot and cold fittings, to suit Whale, Speedfit, Hep 20.*
- Twin or single coil versions available.*

TECHNICAL INFORMATION	Length (mm)	Width (mm)	Height (mm)
10 Vertical	400	250	390
10 Horizontal	550	250	250
22 Horizontal *	510	370	380
30 Horizontal *	610	370	380
40 Horizontal *	750	370	380
55 Horizontal *	970	370	380
75 Horizontal *	1130	400	400

CALORIFIER

Fully insulated hot water storage calorifiers complete with 240V, 1kW immersion heater.

Note:

10 litre versions do not incorporate a thermostatic mixing valve. This is available as an optional extra (Part number: 29.2199.01.4399).

CALORIFIER INFORMATION

Size	Part Number	Description
10 Litres	29.2100.01.7700	Single Coil Vertical
	29.2100.01.7722	Single Coil Horizontal
22 Litres	29.2100.01.7794	Single Coil Horizontal
	29.2100.01.7795	Twin Coil Horizontal
30 Litres	29.2100.01.7796	Single Coil Horizontal
	29.2100.01.7797	Twin Coil Horizontal
40 Litres	29.2100.01.7798	Single Coil Horizontal
	29.2100.01.7799	Twin Coil Horizontal
55 Litres	29.2100.01.7800	Single Coil Horizontal
	29.2100.01.7801	Twin Coil Horizontal
75 Litres	29.2100.01.7802	Single Coil Horizontal
	29.2100.01.7803	Twin Coil Horizontal
