

Operation altitude ranges of Webasto heaters

AM and SOE versions

Altitude [m]	0	500	1.000	1.500	2.000	2.500	3.000	3.500	4.000	4.500	5.000	5.500	6.000	
AT2000ST(C)	100% heating power up to 1.500 m		Altitude mode* up to 2.200 m (1,4 kW)		* In connection with MultiControl, available from Q3/2017									
AT Evo 40	100% heating power up to 2.200 m					High Altitude version*: Heating power max. 2,8 kW up to 5.000 m					* SOE customers only, available from Q3/2017			
AT Evo 55	100% heating power up to 2.200 m													
TT Evo	100% heating power up to 1.500 m			Optional up to 3.000 m*			* Only available when altitude signal is available from vehicle CAN/LIN interface							
TP50E	100% heating power up to app. 2.500 m, reduction of full load to app. 4,5 kW up to 3.500 m													
TP90	100% heating power up to 2.200 m					Max. heating power 7 kW up to 3.500 m			HAAM version*: max. heating power 5,5 kW up to app. 4.700 m		* SOE customers only, available from Q3/2017			
TP90 HDD*	100% heating power up to 2.200 m					Max. heating power 7 kW up to 3.500 m			* SOE customers only					
DBW2010	100% heating power up to 1.500 m													
DBW2016	100% heating power up to 1.500 m			High Altitude version*: 16 kW up to 4.200 m						* SOE customers only				
TTP120	100% heating power up to 3.500 m													
TTP150	100% heating power up to 3.500 m
